

Q3 2024

We hope you've had a fantastic summer! As we soon step into September, we're excited to unveil the first wave of some exciting changes coming up at Daltco now and in the coming months, including our new logo, which you can see above!

As you might know, Daltco joined the Group Deschenes (GDI) family of companies in 2021, becoming their 14th business unit. Today, GDI has grown to encompass 16 companies across various product segments, including plumbing and heating, electrical, waterworks, fire protection, HVAC/R, auto parts, measurement and control equipment, and the oil and gas markets.

Each company within the GDI family is a vital "link" in a robust network, now comprising over 3,500 employees in 126 cities across Canada. The chain link in our new logo symbolizes our pride in being a part of this strong, interconnected group of companies and we recognize the strength of the group makes us even better.

Over the coming months we will be working hard on enhancements to improve our customer service, ease of doing business and digital platforms to be a better partner to you, our valued customers. We will keep you updated every step of the way as we continue to make improvements and updates to our processes and as always if you have any feedback as changes arise, please do not hesitate to reach out to us.

NEW

As part of our first wave of system improvements you will notice some changes to various Daltco forms beginning next week. The first of which will be our packing slips and invoices which will now have a slightly different and more streamlined look to them. Please take a moment if you like to click the links for an expanded view of the new forms and how they compare to our previous versions.

As always if you have any feedback, please feel free to reach out to your Daltco representative!
