

# Introducing the industry's first LED wireless PowerPac™ circuit breakers!

Schneider Electric Canada is excited to announce a new generation of PowerPac™ breakers being launched in the upcoming months of this year. The new line is expected to be available at the end of Q2 this year.

## New added features include:

- **Visual trip indication:** Reduce downtime with the industry first LED present on the handle **Visi-Trip™** (available for multiple frames)
- **Semi-transparent front plate:** Faster identification of coils and auxiliary contacts presence
- **Laser engraved:** Clear, permanent labeling with laser engraved specifications
- **QR code:** Quick access to digital tools and resources
- **New generation of contacts:** Future ready for wireless connectivity
- **Remote monitoring:** View breaker status through smartphone APP, or approved EMPS or BMS system

There is no change to overall form, fit, function, series ratings, certifications, performance, terminations or mounting. As you are one of our valued key Distributors, we will be coordinating with you in the coming weeks as the new models are deployed to have the existing stock sold out and to replenish with the new PowerPac™ breakers.

Schneider Electric's new generation of PowerPac™ circuit breakers maintain a distinct familiar design with a sleek new front plate, green markings and robust toggle switch.

For updates on our launch initiatives and dates, look for upcoming communications or contact your Schneider representative. For any questions, please do not hesitate to contact your Schneider Electric Channel Manager.
